

The **Digital Product School** is awarding the following

Certificate

to **Behnam Sepehri**

for successfully completing our interdisciplinary program from **9 Sept 2024 to 29 Nov 2024** as a **Software Engineer** of team **Homie Goats**.

About

Digital Product School (DPS) is a 3-month full-time training program and internship by UnternehmerTUM GmbH. The DPS combines workshops and coaching with hands-on working experience in digital product development.

Participants from various professional, cultural, and personal backgrounds collaborate in interdisciplinary teams to create human-centered digital solutions for actual problems provided by partner organizations.

Daniel Bedö, Head of Software Engineering
